Report description:

Home insecticides are highly seasonal products in Switzerland with sales peaking around the spring and summer months. This is when the country typically experiences warmer and more humid weather, which is generally when the insect population proliferates. As such, annual sales are often concentrated during only a few months of the year. Furthermore, the category is deeply reliant on weather conditions during these key months and which can harshly affect sales. That said, home insecticides saw vo...

Euromonitor International's Home Insecticides in Switzerland market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
