Report description:

Self-service cafeterias continued to record a positive performance in terms of value sales and transactions in 2023, despite the closure of some chained outlets, such as House of Fraser and Asda. Self-service cafeterias continued to experience a positive performance following a decline during the pandemic years due to a behavioural shift in price-sensitive consumers. Both chained and independent self-service cafeterias recorded double-digit value growth due to multiple reasons. Inflation benefit...

Euromonitor International's Self-Service Cafeterias in United Kingdom report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues. Forecasts to 2028 illustrate how the market is set to change.
