Report description:

While showing signs of moderating, inflation remained an issue for the Danish economy at the end of the review period. From a review period perspective, inflation remained high in 2023, albeit below the 2022 peak rate. Inflation continued to have an impact on the category through higher retail price points and subsequent heightened price-sensitivity among local consumers. Household finances continued to be strained, with strong pressure on disposable incomes and purchasing power. Thus, there was...
