Report description:

In 2023, descalers experienced positive retail volume growth, attributed to two reasons. Firstly, the decline in water quality has raised concerns among consumers. These products effectively prevent limescale accumulation, extending the lifespan of household appliances and reducing maintenance costs. Secondly, the desire to prolong the life and efficiency of technology and appliances has driven the popularity of descalers. Consumers have recognised descalers as a cost-effective preventive measur...

Euromonitor International's Surface Care in Latvia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues.
