### **Report description:**

2023 was not a good year for small local grocers in Slovakia. With inflation still being high, consumers cut back on spending in such outlets, as prices tend to be higher than in other larger grocery retailers. As such, both constant and current value sales fell. Some outlets also closed in 2023.

Euromonitor International's Small Local Grocers in Slovakia report offers insight into key trends and developments driving the industry. The report examines all retail channels to provide sector insight. Channels include hypermarkets, supermarkets, discounters, convenience stores, mixed retailers, health and beauty retailers, clothing and footwear retailers, furniture and furnishing stores, DIY and hardware stores, durable goods retailers, leisure and personal goods retailers. There are profiles of leading retailers, with analysis of their performance and the challenges they face. There is also analysis of non-store retailing: vending; homeshopping; internet retailing; direct selling, as available.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
