Report description:

The health and wellness industry continues to grow in importance post-pandemic as consumers become more aware of the negative health impact of processed foods, seeking healthier foods and beverages from a range of claims such as natural, organic, good source of minerals/vitamins, no sugar/no added sugar (particularly in beverages), low fat and high protein/fibre.

Euromonitor International's Health and Wellness in Belgium report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: HW Cooking Ingredients and Meals, HW Dairy Products and Alternatives, HW Hot Drinks, HW Snacks, HW Soft Drinks, HW Staple Foods.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
