Report description:

Organic products came to the fore in several categories within cooking ingredients and meals in 2022. As demand has risen retailers' shelves have become increasingly crowded with organic products with many stores creating specific areas of their stores dedicated to organic products. There has also been a growing presence of private label products, especially within organic olive oil and organic jams and preserves.

Euromonitor International's HW Cooking Ingredients and Meals in Italy report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors.
