Report description:

Natural claims and consumer demand for authenticity drove sales of health and wellness hot drinks in Belgium during 2022. Indeed, despite the fact that inflation badly impacted the category, and both on-the-go consumption and on-trade sales were only just recovering from the pandemic, Belgians continued to seek out more premium and healthy hot drinks, such as natural healthy fruit/herbal teas and organic hot drinks. In response, more hot drinks' manufacturers began focusing on consumer demand an...

Euromonitor International's HW Hot Drinks in Belgium report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
