Report description:

In 2022, hot drinks continued to be driven by health and wellness trends that included low sugar content and functional products offering higher specific value. To remain competitive, both small and large hot drinks brands have been introducing new products that align with these trends and cater for consumers' changing needs. While reducing sugar content in hot drinks is essential to meet health-conscious demands and respond to impending sugar taxes, developing functional ingredients such as vit...

Euromonitor International's HW Hot Drinks in Thailand report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2019-2023, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2028 illustrate how the market is set to change.
