Report description:

Rising health awareness in the Czech Republic continued to positively impact snacking trends in 2022. Natural ingredients, healthy positioning and product fortification remained in demand. These trends were further supported by new product launches, including Mentos + Vitamins B6, C and B12. Czech consumers recognised the higher specific value offered by functional confectionery and low sugar products in 2022. However, intensive price promotions and discounts were evident, as local consumers sou...

Euromonitor International's HW Snacks in Czech Republic report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2018-2022, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2027 illustrate how the market is set to change.
