Report description:

The overall meals and soups category saw declining packaging unit volume sales in 2022, due, in part, to inflationary pressures that adversely affected consumers' discretionary spending. However, within meals and soups, food kits managed to continue recording positive growth, driven by the dynamic performance seen in meals kits. Meal kits offer a level of convenience to consumers by offering them pre-portioned ingredients and recipe guides to make cooking easier and less time-consuming. Category...
