Report description:

Because of their adaptability, visual attractiveness and practical benefits, folding cartons are a popular pack type for meals and soups. Folding cartons act as a barrier against external elements, such as light, moisture and air, preserving the freshness and quality of meals and soups. This pack type can be customised to suit different shapes and sizes of meals and soups, giving players the freedom to package a wide range of different products. They are environmentally friendly and provide enou...

Euromonitor International's Meals and Soups Packaging in Germany report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
