### **Report description:**

Personal accessories faced slow growth in 2023, due to economic uncertainty. Consumer confidence revived somewhat towards the end of the year, but spending is expected to remain constrained, due to the global financial and labour crises. Hybrid and remote working have reduced the need for business bags, but last-minute and short-haul travel have increased, creating opportunities for backpacks and duffel bags. Bag sales have yet to recover fully, but luggage sales surpassed 2019 levels in current...
