Report description:

Plant-based dairy continued on its dynamic growth trajectory towards the end of the review period, albeit from a low base. While plant-based dairy has been available in Romania for some years, the pandemic and associated health trends accelerated consumer interest in healthy-positioned plant-based dairy. Previously to this, plant-based options were mainly limited to religious fasts, when the Orthodox Christian religion forbids consumption of several animal origin products which include dairy. Ho...

Euromonitor International's Plant-based Dairy Packaging in Romania report offers insight into key trends and developments driving packaging across the category. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
