Report description:

In 2023, the demand for Rx/reimbursement adult incontinence witnessed continued growth in Estonia, with both value and volume experiencing an upward trajectory. This growth trend persisted despite the ongoing challenges associated with limited funding through Rx channels. Moderate/heavy adult incontinence products remained the preferred choice for consumers diagnosed with more severe incontinence issues, contributing to the overall positive performance of the product area.

Euromonitor International's Rx/Reimbursement adult incontinence in Estonia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
