Report description:

In 2023, the tissue and hygiene landscape in Greece recorded double-digit retail value growth, driven by rising price points. However, the decline in disposable incomes influenced and shaped consumer behaviour in the tissue and hygiene market. While inflationary pressures started to ease in 2023, the retail price of tissue and hygiene saw consecutive price hikes driven by increased production and operating costs. With price increases exceeding 25% compared to 2021, shopping was driven by promoti...
