Report description:

Sales of bleach declined in Hong Kong in 2023 in both retail volume and current value terms. With the end of the pandemic, a large number of consumers elected to spend more time outside of their homes. As a result, the number of consumers demanding bleach to help eliminate germs and maintain a hygienic living environment decreased, as less time was spent at home, and the pandemic slowly became a memory. After seeing a significant increase in 2020, sales fell below the pre-pandemic level in 2022,...

Euromonitor International's Bleach in Hong Kong, China market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
