Report description:

Tissue and hygiene in the Philippines registered a positive performance in current value terms in 2023, continuing the trend of the previous year. Growth was supported by improved economic conditions and an increase in consumer mobility, as the country emerged from the COVID-19 pandemic. This boosted sales of products such as pantyliners, disposable pants and most notably, personal wipes, which tend to be used more frequently by consumers when outside the home. There was also a persisting emphasis...
