Report description:

In 2023, traditional and connected watches maintained significant current value growth in India, although connected watches surged ahead of traditional watches in terms of growth; a trend attributed to the increasing emphasis on fitness and health in the country. With advanced functionalities and an array of sports modes, smart wearables have gained significant traction amongst consumers for their practicality and utility during physical activities. Offering features such as step tracking, vario...

Euromonitor International's Traditional and Connected Watches in India report offers a comprehensive guide to the size and shape of the market at a national level.
