Report description:

In 2023, sales of home insecticides continued to rise in retail current value terms, due to factors such as changing consumer preferences and weather conditions. Consumers have increasingly been trading up from cheaper variants, such as insecticide coils, to premium offerings, including electric and spray/aerosol insecticides, since they are considered less hazardous to health, and to have better efficacy. The growing consumer focus on maintaining a clean and hygienic environment also supported...

Euromonitor International's Home Insecticides in India market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, packaging innovations, economic/lifestyle influences, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.
