Report description:

Hot drinks is expected to maintain solid retail current value growth in China in 2023, with increases across all categories. In addition, total volume consumption of hot drinks is set to continue to rise, registering low single-digit growth, with foodservice volume growth expected to be slightly higher than retail volume growth due to the continued rebound of foodservice sales following the lifting of COVID-19 lockdown measures. Hot drinks is increasingly influenced by developments and innovatio...

Euromonitor International's Hot Drinks in China report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth.
