### Report description:

#### Description

#### Report Scope

This report analyzes the global plastics for healthcare packaging market by segmenting it based on resin and product packaging. These market segments are further analyzed at the global and regional levels. The base year for this analysis is 2022, and market estimates and forecasts are given from 2023 (through 2028. The market estimates are provided in terms of volume (kilo tons) and revenue (millions of U.S. dollars).

On the basis of resin, the plastics for healthcare packaging market is classified into polypropylene, HDPE, polystyrene and copolymers, LDPE/LLDPE, PVC, PET, and others. The polypropylene segment dominated the overall resin segment. Based on product packaging, the market is segmented into containers, caps and closures, vials, IV bags, prefilled syringes, blister packs, bags/pouches, medication tubes, prescription containers and others.

#### Report Includes

- 54 data tables and 42 additional tables
- Overview of the global market for plastics for healthcare packaging applications
- Analyses of the global market trends, with historical revenue data (sales figures) for 2022, estimates for 2023, forecasts for 2024, and projections of compound annual growth rates (CAGRs) through 2028
- Estimate of the current market size and growth prospects for the global market, accompanied by a market share analysis based on resin type, product, and region
- Facts and figures pertaining to the market growth drivers, opportunities and restraints, emerging technologies, prospects, regulations and trends, and the impacts of macroeconomic variables
- Identification of the technical as well as other non-technical challenges that must be prevailed over for the market to realize its full potential
- A relevant patent analysis
- Overview of the sustainability trends and ESG developments in the global market, with emphasis on consumer attitudes, ESG

score analysis, the future of ESG, and the ESG practices followed

- Identification of the major vendors along with an analysis of the structure of this industry, including company market shares, recent M&A activities, and venture funding outlook
- Analysis of the competitive landscape featuring company business segments, financials, product portfolios, and recent developments
- Company profiles of the major market players

## Executive Summary

### Summary:

The global market value of plastics for healthcare packaging is expected to grow from \$32.1 billion in 2023 and should reach \$46.1 billion by the end of 2028, at a compound annual growth rate (CAGR) of 7.5% during the forecast period of 2023 to 2028. The Asia-Pacific market value of plastics for healthcare packaging is expected to grow from \$14.2 billion in 2023 and should reach \$21.1 billion by the end of 2028, at a CAGR of 8.3% during the forecast period of 2023 to 2028.

The North American market value of plastics for healthcare packaging is expected to grow from \$8.5 billion in 2023 and should reach \$12.2 billion by the end of 2028, at a CAGR of 7.6% during the forecast period of 2023 to 2028

Market Summary

Chapter 2 Market Overview

Introduction to Healthcare Packaging

Production Technologies of Plastics Pharmaceutical Packaging

Supply Chain Analysis

Porter's Five Forces Analysis

Bargaining Power of Suppliers: Moderate

Competition in the Industry: High

Threat of Substitutes: High

Threat of Market Entry: Moderate

Bargaining Power of Buyers: Moderate

Chapter 3 Market Dynamics

Overview

Market Drivers

Market Opportunity

Market Challenges

Chapter 4 Regulatory Landscape

Regulatory Analysis

Anti-Tampering Regulations

Labelling Regulations

Chapter 5 Emerging Technologies

Pharmaceutical Packaging Future Trends  
Changing Pharmaceutical Industry  
Increase in Self-Administered Therapies  
Packaging Technologies  
Blow-Fill-Seal Technology  
Anti-Counterfeit Packaging Technologies  
Anti-Counterfeiting Technology Solutions  
New Product and Technology Development

Chapter 6 Market Segmentation Analysis  
Segmentation Breakdown  
Market Analysis by Resin  
Polypropylene  
HDPE  
Polystyrene and Copolymers  
LDPE/LLDPE  
PVC  
PET  
Others

Market Analysis by Product  
Containers  
Caps & Closures  
Vials  
IV Bags  
Prefilled Syringes  
Blister Packs  
Bags/Pouches  
Medication Tubes  
Prescription Container
