Report description:

In Australia, the demand for home insecticides saw solid retail volume and current value growth in 2023, with consumers continuing to show a preference for spray/aerosol insecticides due to their perceived efficacy. However, many other insecticides products are considered to be of relatively low importance to local consumers. One factor contributing to the low growth rate of certain categories within home insecticides is their limited shelf space in major retail outlets. Meanwhile, the use of in...

Euromonitor International's Home Insecticides in Australia market report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the sectors driving growth.
