- Enterprise License \$9600.00

Report description:

The global marine cargo insurance market is anticipated to reach \$29,909.90 million by 2032, growing from \$19,580.40 million in 2022 at a CAGR of 4.4% from 2023 to 2032.

Marine cargo insurance refers to a type of insurance that provides coverage for goods or cargo while they are being transported via sea. When goods are shipped internationally or domestically, they face numerous risks such as theft, damage, loss due to accidents, fires, or natural disasters, and other unforeseen events. Marine cargo insurance helps mitigate these risks by offering financial protection to the cargo owner or the party. Marine cargo insurance policies typically cover physical loss or damage to the goods from the time they leave the warehouse of the seller until they reach the warehouse of the buyer. The coverage may also extend to include the storage of goods during the transit period.

The market for marine cargo insurance is mainly driven by globalization, which refers to the increasing interconnectedness of economies and the integration of markets worldwide. As businesses seek to tap into new markets and take advantage of cost-effective production options in different regions, they engage in international trade, leading to the expansion of global supply chains. The need to protect goods during transit becomes crucial, prompting manufacturers and retailers to opt for marine cargo insurance. However, outsourcing and offshoring introduce additional risks due to longer transportation routes and exposure to various modes of transport. Marine cargo insurance provides coverage against potential losses or damages. Global supply chains are characterized by complex logistics networks involving multiple stakeholders, such as manufacturers, suppliers, freight forwarders, and transportation providers. The expansion of global supply chains driven by globalization and outsourcing trends has necessitated the need for comprehensive insurance coverage during transportation. Marine cargo insurance offers protection against the inherent risks associated with international trade, ensuring the safe and secure movement of goods across borders and facilitating the growth of global supply chains.

The marine cargo industry is susceptible to various risks, including theft, damage, piracy, and natural disasters. When the number

Scotts International. EU Vat number: PL 6772247784

www.scott's-international.com

and severity of claims rise, insurers face higher payouts, which can impact their profitability. Insurers need to maintain a delicate balance between providing coverage and managing the financial impact of claims. Moreover, insufficient or inaccurate risk assessment can lead to higher claims and loss ratios. If insurers fail to adequately assess the risks associated with certain cargo or routes, they may unknowingly underprice policies or provide coverage to high-risk shipments. This can result in an imbalance between premiums collected and claims paid out, impacting insurers' profitability. Furthermore, failure to implement effective risk mitigation measures can contribute to higher claims and loss ratios. Insurers rely on proper risk management practices, including security measures, safety protocols, and loss prevention strategies. Inadequate risk mitigation efforts can make cargo more vulnerable to theft, damage, or other perils, resulting in increased claims.

The rising focus on sustainability presents an opportunity for insurers to offer eco-friendly marine cargo insurance solutions. Insurers can develop specialized policies that provide coverage for goods transported through eco-friendly methods such as electric or hybrid vessels, or shipping companies that adhere to low-carbon practices. These policies can incentivize businesses to opt for greener transportation options and help reduce carbon emissions in the marine cargo sector. As the demand for renewable energy grows, insurers can offer coverage specifically tailored to the marine transportation of renewable energy products such as solar panels, wind turbine components, or biomass materials. These policies can address the unique risks associated with transporting these specialized cargoes, encouraging investment and expansion in the renewable energy sector. Insurers can design policies that provide preferential rates or additional coverage for businesses that demonstrate sustainable practices in their supply chains. This can include offering discounts for companies that implement carbon offsetting measures, use eco-friendly packaging, or adopt sustainable sourcing and production methods. Such policies would encourage businesses to adopt environmentally responsible practices while mitigating their risks through insurance coverage.

The COVID-19 pandemic had a significant impact on the market for marine cargo insurance. The pandemic led to major disruptions in global supply chains due to lockdowns, travel restrictions, and reduced production capacities. These disruptions resulted in delays, rerouting, and cancellations of shipments, which increased the risks associated with marine cargo transportation. The pandemic led to shifts in consumer demand and changes in the types of goods being transported. For example, there has been an increase in e-commerce and a decrease in certain sectors like tourism and hospitality. These changes impact the cargo mix and volumes, which may require adjustments in insurance coverage and valuation. The pandemic has raised awareness about potential risks associated with global trade and supply chains. Insurers and insured parties may reevaluate their risk management strategies and insurance coverage to mitigate the impact of future disruptions. There could be a greater focus on specific risks, such as non-delivery, spoilage, or storage-related issues.

The key players profiled in this report include Munich Re Group, Allianz, MARSH LLC., Tiba, Liberty Mutual Insurance Group, Samsung Fine & Marine Insurance Corp., Marine Insurance Co Ltd, Lloyd's, Chubb, and Atrium. The market players are continuously striving to achieve a dominant position in this competitive market using strategies such as collaborations and acquisitions.

Key Benefits For Stakeholders

- This report provides a quantitative analysis of the market segments, current trends, estimations, and dynamics of the marine cargo insurance market analysis from 2022 to 2032 to identify the prevailing marine cargo insurance market opportunities.
- The market research is offered along with information related to key drivers, restraints, and opportunities.
- Porter's five forces analysis highlights the potency of buyers and suppliers to enable stakeholders make profit-oriented business decisions and strengthen their supplier-buyer network.
- In-depth analysis of the marine cargo insurance market segmentation assists to determine the prevailing market opportunities.
- Major countries in each region are mapped according to their revenue contribution to the global market.
- Market player positioning facilitates benchmarking and provides a clear understanding of the present position of the market players.
- The report includes the analysis of the regional as well as global marine cargo insurance market trends, key players, market segments, application areas, and market growth strategies.

Key Market Segments

Table of Contents:

CHAPTER 1: INTRODUCTION

1.1. Report description

1.2. Key market segments

Scotts International. EU Vat number: PL 6772247784

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

1.3. Key benefits to the stakeholders

1.4. Research Methodology

1.4.1. Primary research

1.4.2. Secondary research

1.4.3. Analyst tools and models

CHAPTER 2: EXECUTIVE SUMMARY

2.1. CXO Perspective

CHAPTER 3: MARKET OVERVIEW

3.1. Market definition and scope

3.2. Key findings

3.2.1. Top impacting factors

3.2.2. Top investment pockets

3.3. Porter's five forces analysis

3.4. Market dynamics

3.4.1. Drivers

3.4.2. Restraints

3.4.3. Opportunities

3.5. COVID-19 Impact Analysis on the market

3.6. Average Selling Price

3.7. Market Share Analysis

3.8. Regulatory Guidelines

3.9. Value Chain Analysis

3.10. Key Regulation Analysis

3.11. Patent Landscape

CHAPTER 4: MARINE CARGO INSURANCE MARKET, BY DISTRIBUTION CHANNEL

4.1. Overview

4.1.1. Market size and forecast

4.2. Direct Sales

4.2.1. Key market trends, growth factors and opportunities

4.2.2. Market size and forecast, by region

4.2.3. Market share analysis by country

4.3. Indirect Sales

4.3.1. Key market trends, growth factors and opportunities

4.3.2. Market size and forecast, by region

4.3.3. Market share analysis by country

CHAPTER 5: MARINE CARGO INSURANCE MARKET, BY END-USER

5.1. Overview

5.1.1. Market size and forecast

5.2. Traders

5.2.1. Key market trends, growth factors and opportunities

5.2.2. Market size and forecast, by region

5.2.3. Market share analysis by country

5.3. Cargo Owners

5.3.1. Key market trends, growth factors and opportunities

5.3.2. Market size and forecast, by region

5.3.3. Market share analysis by country

5.4. Ship Owners

5.4.1. Key market trends, growth factors and opportunities

5.4.2. Market size and forecast, by region

5.4.3. Market share analysis by country

5.5. Others

5.5.1. Key market trends, growth factors and opportunities

5.5.2. Market size and forecast, by region

5.5.3. Market share analysis by country

CHAPTER 6: MARINE CARGO INSURANCE MARKET, BY REGION

6.1. Overview

6.1.1. Market size and forecast By Region

6.2. North America

6.2.1. Key trends and opportunities

6.2.2. Market size and forecast, by Distribution Channel

6.2.3. Market size and forecast, by End-user

6.2.4. Market size and forecast, by country

6.2.4.1. U.S.

6.2.4.1.1. Key market trends, growth factors and opportunities

6.2.4.1.2. Market size and forecast, by Distribution Channel

6.2.4.1.3. Market size and forecast, by End-user

6.2.4.2. Canada

6.2.4.2.1. Key market trends, growth factors and opportunities

6.2.4.2.2. Market size and forecast, by Distribution Channel

6.2.4.2.3. Market size and forecast, by End-user

6.2.4.3. Mexico

6.2.4.3.1. Key market trends, growth factors and opportunities

6.2.4.3.2. Market size and forecast, by Distribution Channel

6.2.4.3.3. Market size and forecast, by End-user

6.3. Europe

6.3.1. Key trends and opportunities

6.3.2. Market size and forecast, by Distribution Channel

6.3.3. Market size and forecast, by End-user

6.3.4. Market size and forecast, by country

6.3.4.1. Germany

6.3.4.1.1. Key market trends, growth factors and opportunities

6.3.4.1.2. Market size and forecast, by Distribution Channel

6.3.4.1.3. Market size and forecast, by End-user

6.3.4.2. UK

6.3.4.2.1. Key market trends, growth factors and opportunities

6.3.4.2.2. Market size and forecast, by Distribution Channel

6.3.4.2.3. Market size and forecast, by End-user

6.3.4.3. France

6.3.4.3.1. Key market trends, growth factors and opportunities

6.3.4.3.2. Market size and forecast, by Distribution Channel

6.3.4.3.3. Market size and forecast, by End-user

6.3.4.4. Italy

6.3.4.4.1. Key market trends, growth factors and opportunities

6.3.4.4.2. Market size and forecast, by Distribution Channel
