Report description:

The global paint spray gun market size was valued at \$1,525.6 million in 2021, and is projected to reach \$2,260.4 million by 2031, registering a CAGR of 3.8% from 2022 to 2031. Paint spray guns are painting equipment used by professionals as well as DIYers to coat various surfaces by spraying paint onto it. Paint spray guns use pressure from an external source to atomize the liquid paint and spray it on the required surface.

Paint spray guns are available in a wide range of sizes, capacities, and working principal in the market, thereby making them usable by an industrial user as well as by professional and non-professional users. The paint spray gun is registering a rise in popularity owing to its advantageous features such as faster application of paint, blemish free paint coat and ability to reach difficult to access voids and spaces.

Rise in demand for consumer durables (white goods) and automobiles across the world, especially in developing economies, is anticipated to drive the growth in the market. In addition, growth in building & construction sector, owing to rise in population and urbanization is anticipated to drive the demand for paint spray gun market. However, high cost of owning and maintaining a paint spray gun, and requirement of external power source by the paint spray gun are major restraints in the growth of the market. Furthermore, development of light weight and also the incorporation of microprocessors in paint spray gun for smart controls are expected to provide lucrative opportunities for the growth of the market.

The paint spray gun market is segmented on the basis of product type, technology, end-user industry and region. By product type, the market is categorized into airless, compressed air, HVLP (high volume low pressure), LVLP (low volume low pressure), and electrostatic. On the basis of technology, it is bifurcated into automatic and manual. And on the basis on end-user industry, the market is categorized into automotive, construction, manufacturing, and others. Region wise, the market is analyzed across North

The major players that operate in the global market have adopted key strategies such as product launch to strengthen their market outreach and sustain the stiff competition in the market

Competition Analysis

Key companies profiled in the paint spray gun market report include 3M, Anest Iwata, Asahi Sunac, Auarita, DSTech Co., Ltd., EXEL Industries, FUSO SEIKI, Graco Inc., J. Wagner, Lis Industrial, NingBoNavite, Nordson, Prowin Tools, SATA GmbH & Co. KG, Titan Tool Inc., Tritech Industries, Inc., and Zhejiang Rongpeng Air Tools Co., LTD.

Key Benefits For Stakeholders

- This report provides a quantitative analysis of the market segments, current trends, estimations, and dynamics of the paint spray guns market analysis from 2021 to 2031 to identify the prevailing paint spray guns market opportunities.
- The market research is offered along with information related to key drivers, restraints, and opportunities.
- Porter's five forces analysis highlights the potency of buyers and suppliers to enable stakeholders make profit-oriented business decisions and strengthen their supplier-buyer network.
- In-depth analysis of the paint spray guns market segmentation assists to determine the prevailing market opportunities.
- Major countries in each region are mapped according to their revenue contribution to the global market.
- Market player positioning facilitates benchmarking and provides a clear understanding of the present position of the market players.
- The report includes the analysis of the regional as well as global paint spray guns market trends, key players, market segments, application areas, and market growth strategies.
