Report description:

Employees are drawn to workplaces with few accidents and injuries. In such a setting, employees are happier and more productive. For both employers and employees, a safe workplace is crucial. Each and every employee has a right to feel safe at work. No matter the size of the business, workplace safety is crucial. All businesses, regardless of size, must prioritize safety in the workplace. Effective safety procedures safeguard both workers' safety and industrial equipment. Employers have a duty to safeguard their staff members and keep them secure.

Surge in as increase in adoption of rising rate of injuries and deaths at workplace and rise in investments by different government and private organization in the market primarily drive the growth of the workplace safety market. However, costly implementation and insufficiently qualified workers' compensation and health providers hamper the market growth to some extent. Moreover, new trends like smart PPE being introduced are expected to provide lucrative opportunities for the market growth during the forecast period.

The workplace safety market is segmented on the basis of component, system, deployment, application and end user. On the
