- Enterprise License \$9600.00

Report description:

The interdental brush market size was valued at \$272.5 million in 2022 and is projected to reach \$445.8 million by 2032, growing at a CAGR of 5.2% from 2023 to 2032.

Interdental brush is an essential tool for maintaining optimal oral hygiene, designed to clean between teeth and along the gumline where traditional toothbrushes and floss may not reach. These brushes are typically made from materials such as plastic, nylon, or rubber and with eco-friendly options available using biodegradable materials like bamboo. Interdental brushes come in various types, including cylindrical, conical, or tapered designs, to accommodate different interdental spaces and oral health needs. They are used in various oral health purposes including daily oral care routines at home, dental offices for professional cleanings, and even during travel for on-the-go hygiene. Interdental brushes are particularly beneficial for individuals with braces, dental implants, or periodontal issues, as well as those seeking a convenient alternative to traditional flossing.

The aging population's higher susceptibility to dental issues serves as a significant driver for the interdental brush market, creating a surge in demand for effective oral care solutions. As individuals age, they become more susceptible to dental problems such as gum disease, tooth decay, and periodontal issues due to factors such as natural wear and tear, reduced saliva production, and underlying health conditions. These dental issues are exacerbated by age-related changes in oral health, making older adults particularly vulnerable to plaque buildup and interdental problems. Interdental brushes offer a targeted solution for cleaning between teeth and along the gumline, effectively removing plaque and fragments to prevent the development and progression of dental issues. Moreover, the aging population continues to grow globally, there is an increasing need for oral care products which

www.scotts-international.com

address the specific challenges faced by older adults which drives the demand for interdental brushes as an essential tool for maintaining oral health.

Furthermore, dental professionals often recommend interdental brushes as part of comprehensive oral care routines for older adults, recognizing their effectiveness in preventing common dental problems related with aging. As individuals seek to maintain their oral health and quality of life as they age, they are more likely to follow dental professionals' recommendations and use interdental brushes into their daily oral care routines and help the interdental brush market boost.

Consumers hesitate to use interdental brushes due to fears of causing damage to their gums and tooth enamel. The perception that interdental brushes may be too harsh or abrasive on delicate oral tissues discourage individuals from using interdental brushes into their oral care routines, particularly those with sensitive gums or enamel. Moreover, this concern is combined by the wide range of bristle stiffness available in interdental brushes, with some brushes featuring firmer bristles which may be perceived as abrasive by certain users. As a result, potential consumers may opt for gentler oral care alternatives, such as dental floss or water flossers, to avoid potential damage to their gums and enamel. Thus, all these factors limit the demand of interdental brushes market.

The development of specialized brushes adapted to address specific oral health issues presents significant opportunities in the interdental brush market. As oral health concerns vary among individuals, there is a growing demand for interdental brushes designed to target specific dental conditions and needs. For instance, individuals with sensitive gums may benefit from softer bristles or brushes with gentle rubber tips to minimize irritation and discomfort during interdental cleaning. Likewise, those with orthodontic appliances such as braces or dental implants require specialized interdental brushes with unique shapes and sizes to effectively clean around brackets, wires, or dental hardware. Moreover, by developing specialized brushes which cater to these distinct oral health needs, manufacturers expand their product offerings and capture niche market segments and enhance consumer satisfaction and loyalty.

In addition, the development of specialized interdental brushes presents opportunities for manufacturers to differentiate their products and build brand recognition in the competitive oral care market. By leveraging innovative designs, materials, and features, companies position their specialized brushes as advanced solutions for addressing specific oral health concerns. Furthermore, integration of ergonomic handles or adjustable angles into specialized brushes may improve user comfort and maneuverability and further enhance present several opportunities for interdental brush market.

The interdental brush market is segmented into type, bristle, handle, distribution channel and region. By type, the market is classified reusable interdental brushes and disposable interdental brushes. By bristle, the market is classified into nylon bristles and plastic bristles. By handle, the market is classified into wire handles and plastic handles. By distribution channel, the market is classified into pharmacies & drug stores, dental clinics & dental supply stores and online sales channels. Region-wise, the market is analyzed across North America (the U.S., Canada, and Mexico), Europe (France, Germany, the UK, Italy, Spain, Russia, and the Rest of Europe), Asia-Pacific (China, Japan, India, Australia, South Korea, and the Rest of Asia-Pacific), Latin America (Brazil, Argentina, Colombia and Rest of Latin America), and Middle East & Africa (South Africa, Saudi Arabia, UAE and Rest of MEA). Players operating in the global interdental brush market have adopted various developmental strategies to expand their interdental brush market share, increase profitability, and remain competitive in the market. Key players profiled in this report include TePe Munhygienprodukt AB, Curaden AG, Colgate-Palmolive Company, Prestige Consumer Healthcare Inc., Procter & Gamble, Wisdom Toothbrushes Ltd., Lion Corporation, Trisa AG, Sunstar Suisse S.A. and Piksters.

Key Benefits for Stakeholders

- This report provides a quantitative analysis of the market segments, current trends, estimations, and dynamics of the interdental brush market analysis from 2022 to 2032 to identify the prevailing interdental brush market opportunities.
- The market research is offered along with information related to key drivers, restraints, and opportunities.
- Porter's five forces analysis highlights the potency of buyers and suppliers to enable stakeholders make profit-oriented business decisions and strengthen their supplier-buyer network.
- In-depth analysis of the interdental brush market segmentation assists to determine the prevailing market opportunities.
- Major countries in each region are mapped according to their revenue contribution to the global market.
- Market player positioning facilitates benchmarking and provides a clear understanding of the present position of the market players.

-The report includes the analysis of the regional as well as global interdental brush market trends, key players, market segments, application areas, and market growth strategies.

Additional benefits you will get with this purchase are:

- Quarterly Update and* (only available with a corporate license, on listed price)
- 5 additional Company Profile of client Choice pre- or Post-purchase, as a free update.
- Free Upcoming Version on the Purchase of Five and Enterprise User License.
- 16 analyst hours of support* (post-purchase, if you find additional data requirements upon review of the report, you may receive support amounting to 16 analyst hours to solve questions, and post-sale queries)
- 15% Free Customization* (in case the scope or segment of the report does not match your requirements, 15% is equivalent to 3 working days of free work, applicable once)
- Free data Pack on the Five and Enterprise User License. (Excel version of the report)
- Free Updated report if the report is 6-12 months old or older.
- 24-hour priority response*
- Free Industry updates and white papers.

Possible Customization with this report (with additional cost and timeline, please talk to the sales executive to know more)

- Product Benchmarking / Product specification and applications
- Consumer Preference and Product Specifications
- Market share analysis of players by products/segments
- Additional company profiles with specific to client's interest
- Additional country or region analysis- market size and forecast
- Expanded list for Company Profiles
- Key player details (including location, contact details, supplier/vendor network etc. in excel format)
- Market share analysis of players at global/region/country level
- SWOT Analysis

Key Market Segments

By Handle

- Wire Handles
- Plastic Handles

By Distribution Channel

- Pharmacies and Drug Stores
- Dental clinics and Dental supply stores
- Online sales channels

By Type

- Reusable Interdental Brushes
- Disposable Interdental Brushes

By Bristle

- Nylon Bristles
- Plastic Bristles

By Region

- North America

Table of Contents:

CHAPTER 1: INTRODUCTION

- 1.1. Report description
- 1.2. Key market segments
- 1.3. Key benefits to the stakeholders
- 1.4. Research methodology
 - 1.4.1. Primary research
 - 1.4.2. Secondary research
 - 1.4.3. Analyst tools and models

CHAPTER 2: EXECUTIVE SUMMARY

- 2.1. CXO perspective

CHAPTER 3: MARKET OVERVIEW

- 3.1. Market definition and scope

Scotts International. EU Vat number: PL 6772247784

tel. 0048 603 394 346 e-mail: support@scotts-international.com

www.scotts-international.com

3.2. Key findings

3.2.1. Top impacting factors

3.2.2. Top investment pockets

3.3. Porter's five forces analysis

3.4. Market dynamics

3.4.1. Drivers

3.4.2. Restraints

3.4.3. Opportunities

CHAPTER 4: INTERDENTAL BRUSH MARKET, BY TYPE

4.1. Overview

4.1.1. Market size and forecast

4.2. Reusable Interdental Brushes

4.2.1. Key market trends, growth factors and opportunities

4.2.2. Market size and forecast, by region

4.2.3. Market share analysis by country

4.3. Disposable Interdental Brushes

4.3.1. Key market trends, growth factors and opportunities

4.3.2. Market size and forecast, by region

4.3.3. Market share analysis by country

CHAPTER 5: INTERDENTAL BRUSH MARKET, BY BRISTLE

5.1. Overview

5.1.1. Market size and forecast

5.2. Nylon Bristles

5.2.1. Key market trends, growth factors and opportunities

5.2.2. Market size and forecast, by region

5.2.3. Market share analysis by country

5.3. Plastic Bristles

5.3.1. Key market trends, growth factors and opportunities

5.3.2. Market size and forecast, by region

5.3.3. Market share analysis by country

CHAPTER 6: INTERDENTAL BRUSH MARKET, BY HANDLE

6.1. Overview

6.1.1. Market size and forecast

6.2. Wire Handles

6.2.1. Key market trends, growth factors and opportunities

6.2.2. Market size and forecast, by region

6.2.3. Market share analysis by country

6.3. Plastic Handles

6.3.1. Key market trends, growth factors and opportunities

6.3.2. Market size and forecast, by region

6.3.3. Market share analysis by country

CHAPTER 7: INTERDENTAL BRUSH MARKET, BY DISTRIBUTION CHANNEL

7.1. Overview

7.1.1. Market size and forecast

7.2. Pharmacies and Drug Stores

7.2.1. Key market trends, growth factors and opportunities

7.2.2. Market size and forecast, by region
