Report description:

The Indian lassi market size reached INR 47.5 Billion in 2023. Lassi, also known as desi buttermilk, is obtained by the churning of curd. It is a bit sour in taste and has a rich dense texture. It is consumed mostly in the northern part of the country, especially during the summer season. It is either consumed by adding sugar and fresh fruit chunks, or by adding salt and some other spices to it. Lassi not only offers refreshment during the summertime, but also boosts the energy levels. Apart from this, it also helps in fighting other summer-related problems such as prickly heat, gastro-intestinal problems and the build-up of bacteria. These factors have highly added to the market growth. Looking forward, IMARC Group expects the Indian lassi market to reach INR 217.5 Billion by 2032, exhibiting a growth rate (CAGR) of 17.9% during 2024-2032.
