Report description:

Real Estate Global Industry Guide 2019-2028

Summary

Global Real Estate industry profile provides top-line qualitative and quantitative summary information including: Industry size (value and volume 2019-23, and forecast to 2028). The profile also contains descriptions of the leading players including key financial metrics and analysis of competitive pressures within the Industry.

Key Highlights

- Real estate refers to physical property and consists of land and buildings. The market scope includes renting and leasing various types of real estate properties.
- By property type, the real estate market is categorized into residential, commercial, industrial, and institutional.
- The residential real estate industry includes renting and leasing residential properties. The industry is valued using the total revenues generated by property owners via the leasing and renting of private and council properties. The commercial segment includes renting and leasing office buildings, retail shops, restaurants, and commercial complexes. The industrial segment covers renting and leasing warehouses, factories, and flex spaces. The institutional segment Includes the renting and leasing of schools, colleges, and university buildings.
- Market volumes include the number of properties rented out. Our scope excludes the real estate properties that are sold by real estate brokers or agents. It also excludes land-sale transactions of any kind, either rented or complete purchase. The volume of the real estate market excludes vacant properties.
- Urban areas with robust job markets, amenities, and infrastructure are attractive destinations for individuals seeking housing. Cities with diverse employment opportunities in sectors such as technology, finance, healthcare, and education tend to experience high demand for real estate properties as people migrate to these urban centers in search of employment and better living standards.
