Report description:

The recovery of travel helped depilatories in the Netherlands to limit the decline in retail volume sales to a marginal one in 2023, following a moderate increase in 2022. Strong growth in average unit prices spiked retail current value growth; however, this had a negative impact on retail volume sales development, as many consumers were more careful with their spending due to higher prices. This negative sentiment was offset partly by the rebound in travel flows. In particular, summer travel an...

Euromonitor International's Depilatories in Netherlands report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
