Report description:

Following the lifting of the COVID-19 lockdowns in 2023 and the return to normalcy, offline activities resumed, which is set to lead to a gradual slowdown in the decrease of the total dog population in 2024. However, future projections indicate a continued decrease in the total dog population, which is attributed to the time constraints of young urbanites, prolonged working hours, and limited living space in urban areas.

Euromonitor International's Dog Food in China report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they new product developments, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Dog Treats and Mixers, Dry Dog Food, Wet Dog Food.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

- * Get a detailed picture of the Dog Food market;
- * Pinpoint growth sectors and identify factors driving change;
- * Understand the competitive environment, the market's major players and leading brands;
- * Use five-year forecasts to assess how the market is predicted to develop.
