### **Report description:**

The pet care industry in Hong Kong continues to present steady value growth in 2024 and is expected to record a further increase over the forecast period. The cat population is experiencing a positive growth trajectory compared to the steady decline of the dog population. This shift towards cat ownership is driven by these animals' independent nature and lower maintenance, making them suitable for owners who are increasingly away for extended periods. However, dog and cat food continues to prese...

Euromonitor International's Pet Care in Hong Kong, China report offers a comprehensive guide to the size and shape of the market at a national level.
