Report description:

Volume sales of sun protection continued to grow in Greece in 2023, driven by the momentum of tourism and rising consumer awareness regarding sun hazards, even off-season. Indeed, daily UV protection is now commonplace. On the other hand, the category was hampered somewhat by a poor start to the summer season, which the sudden and intense heatwave from mid-July onwards could not fully compensate for. This affected mass sun protection and baby and child specific sun protection in particular. Mass...
