Report description:

In 2023, beauty and personal care in Serbia witnessed a notable shift driven by inflationary pressures, leading to price increases across all product areas. While value sales experienced growth primarily due to these price hikes, volume sales saw a slowdown or decline as income growth failed to keep pace with rising prices. Many consumers sought more affordable options, turning to private label products, or seeking discounts and promotions, particularly in categories such as bath and shower, and...

Euromonitor International's Beauty and Personal Care in Serbia report offers a comprehensive guide to the size and shape of the market at a national level.
