Report description:

Many categories of beauty and personal care saw a decline or stagnation in retail volume terms in 2023. Despite the easing of import restrictions the availability of some products and brands still remained limited. This coupled with high inflation and a sharp rise in the cost of living placed a limit on non-essential purchases in 2023. Despite this, sales of basic hygiene products such as bar soap, toothpaste and deodorants remained stable in 2023.
