Report description:

Full-service restaurants remain the most affected foodservice category since the COVID-19 pandemic, with transactions and current value sales in 2023 still well below 2019 levels. Some losses were recouped following a strong rebound in sales during 2022, due to extremely good weather and the return of tourism. The performance of full-service restaurants weakened once more in 2023, in the face of high inflation and competition from more innovative and affordable foodservice options, namely limite...

Euromonitor International's Full-Service Restaurants in Belgium report offers a comprehensive guide to the size and shape of the market at a national level. It provides foodservice sales, the number of outlets and the number of transactions by sector, allowing you to identify the foodservice sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market - be they eating habits, lifestyle changes, tourism spending or legislative issues. Forecasts to 2028 illustrate how the market is set to change.
