Report description:

Hair care in Kenya was home to the same trend towards naturalness found elsewhere in beauty and personal care in 2023. The increasing consumer demand for natural hair care products, and healthier, chemical-free lifestyles in general, is driving evolving demand. Rising health concerns regarding the use of chemical products and the associated shift toward natural products are encouraging most players to focus on the development and launch of new products which are manufactured using natural ingred...

Euromonitor International's Hair Care in Kenya report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
