Report description:

Oral care in Denmark continued to witness positive current value growth in 2023 albeit driven by price increases. By contrast, lower purchasing power led to another year of volume sales decline, as many household budgets remained under pressure and price sensitivity shaped spending behaviour. During the pandemic consumers paid more attention to hygiene in general, including oral care, as people had the opportunity to brush their teeth more regularly and maintain oral hygiene habits. The closing...

Euromonitor International's Oral Care in Denmark report offers a comprehensive guide to the size and shape of the market at a national level.
