Report description:

In 2023, other pet food saw notable retail volume and current value declines in the Philippines, with falling sales across bird food, fish food, and small mammal/reptile food, which can be attributed to inflation and rising prices. In 2024, sales of other pet food are expected to rebound to growth, with increases expected across all categories in both retail volume and current value terms in the Philippines. However, sales are not expected to return to the 2022 level in any category. As a result...
