Report description:

Sun care in Indonesia saw continued growth in both volume and current value terms in 2023, albeit at a slower rate than the previous year. Sales were boosted by a growing consumer awareness of the effectiveness of such products in protecting the skin against the sun's UV rays, together with an enduring cultural preference for fair skin. These trends were visible amongst both female and male consumers, as the latter paid more attention to their appearance. Indeed wearing sunscreen is not consider...
