Report description:

Falling birth rates continued to hamper baby and child-specific products in Slovenia where young families are postponing having children. Women are increasingly focusing on their careers instead of having children, with the weaker economy also encouraging couples to postpone child-rearing. Despite this, baby and child-specific products registered a brighter performance in volume sales due to higher consumer awareness of baby products and the importance of personal care routines. Baby wipes was t...

Euromonitor International's Baby and Child-specific Products in Slovenia report offers a comprehensive guide to the size and shape of the market at a national level.
