Report description:

Despite facing significant cost-of-living pressures in 2023, beauty and personal care in Australia exhibited resilience amid economic challenges. This resilience was particularly evident in the premium segment, which recorded strong growth despite a previous slowdown. The "lipstick effect", a phenomenon where consumers prioritise small indulgences such as beauty products during economic downturns, continued to positively impact sales of beauty and personal care. Despite financial constraints, in...

Euromonitor International's Beauty and Personal Care in Australia report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
