Report description:

Beauty and personal care witnessed a decline in volume sales in Egypt in 2023 and a substantial increase in value terms due to a considerable rise in prices. In a harsh economic environment, with inflation exceeding 35% in 2023, and no government control over prices, beauty and personal care prices doubled. As consumers focused their reduced spending power on essentials and looked to trade down to less expensive options, there were notable shifts in spending patterns in beauty and personal care.

Euromonitor International's Beauty and Personal Care in Egypt report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2019-2023, allowing you to identify the sectors driving growth. Forecasts to 2028 illustrate how the market is set to change.
