Report description:

After rapidly changing circumstances in recent years, beauty and personal care in Poland experienced a certain level of stabilisation in 2023, with slow retail volume growth and dynamic current value growth. A major challenge for players was to operate in conditions of high market volatility, with unstable prices and availability of raw materials and components, increasing production costs, increases in the minimum wage and inflation, and at the same time, increasing consumer demands combined wi...

Euromonitor International's Beauty and Personal Care in Poland report offers a comprehensive guide to the size and shape of the market at a national level.
