Report description:

Home and garden in the UK experienced a marginal increase in current value sales in 2023 following a decline in 2022, which was due to a confluence of economic headwinds that significantly impacted consumer spending. The increasing inflation rate, which resulted in a cost-of-living crisis, forced households to tighten their budgets. This financial strain, combined with supply chain disruptions, the lingering impact of the pandemic and the war in Ukraine, further eroded consumer confidence. Addit...

Euromonitor International's Home and Garden in United Kingdom report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2028 illustrate how market demand is expected to evolve in the medium-term
