Report description:

Eyewear in Japan is set to maintain solid current value growth in 2024, with increases in sales expected across contact lenses, spectacles, and sunglasses. Eyewear products are no longer a simple vision correction tool, but have expanded to eye care/eye health items that protect the health of the eyes. Under this trend, products with functionality, such as sleep assist and added value claims, are increasing. Wearing sunglasses is also becoming increasingly normalised, and incorporated as a daily...
