Electricity and Water Authority (PJSC)'s overall strategic standing and supports informed decision-making and strategic planning.

The report also covers Dubai Electricity and Water Authority (PJSC)'s financial analysis basis of latest income statement, balance sheet, and cash flow statement. Key financial ratios related to profitability, asset turnover, credit, market, and long-term solvency are outlined, providing guidance for investment decisions. Furthermore, the report compares Dubai Electricity and Water Authority (PJSC)'s financial parameters with those of its competitors, offering a unique analysis of the competitive landscape. This information helps manage the business environment and improve sales activities by gaining insight into competitors' operations.

Finally, the report includes recent news and deal activities undertaken by Dubai Electricity and Water Authority (PJSC) enhancing awareness of the company's business trends, growth perspectives, and more.

Key Highlights

Dubai Electricity and Water Authority (PJSC) primarily engages in the generation, transmission, and distribution of electricity to a wide range of customers in Dubai, including residential, commercial, industrial, and governmental entities. Its activities encompass various aspects of the water sector, including desalination, transmission, and distribution, as well as the provision and maintenance of cooling plants. Additionally, it operates and maintains power and water plants under the independent water producer (IPP) model, while also engaging in the purification and sale of potable water.

Moreover, Dubai Electricity and Water Authority (PJSC) offers a diverse array of services, including information technology infrastructure, networking, computer system housing, and data entry services. It also provides communication equipment, software design, data analysis, and data center co-location services, along with air conditioning, ventilation, and air filtration system installation and maintenance services.

Furthermore, the company is involved in project development and consultancy services, operation and maintenance of desalination and sewage treatment plants, as well as installation and maintenance of parking management electronic systems. Additionally, it invests in and manages various commercial, industrial, retail trade, and energy enterprises.

Dubai Electricity and Water Authority (PJSC) also undertakes initiatives related to energy efficiency measures in buildings, manufacturing of insulated pipes, and management and operation of satellite systems. It offers satellite services, communication system installation, energy project engineering consultancy, and carbon control systems trading services.

Established in 1959 and headquartered in Dubai, United Arab Emirates, Dubai Electricity and Water Authority (PJSC) continues to play a crucial role in providing essential utilities and services to the region while expanding its offerings to embrace modern technology and sustainability initiatives.
