Report description:

Gardening in Japan saw current value growth in 2023. In recent years, Japan has witnessed a significant shift in lifestyle dynamics, with an increasing emphasis on relaxation and home-centred activities amidst evolving work environments. This transition has propelled gardening into the spotlight as a favoured pastime for many. Despite residing in urban areas with limited outdoor space, such as apartments and housing complexes, many Japanese individuals have turned to balconies and verandas as a...

Euromonitor International's Gardening in Japan report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2028 illustrate how market demand is expected to evolve in the medium-term
