Report description:

Home and garden in Taiwan saw a stagnant performance in current value terms in 2023, in contrast to the modest growth recorded in the previous year. While the country's inflation rate was relatively low compared to other markets in the Asia Pacific region, such as Singapore, spiralling food and energy prices, exacerbated by supply chain disruptions arising from the war in Ukraine, placed a squeeze on household budgets. This was compounded by general concerns surrounding the outcome of forthcoming...

Euromonitor International's Home and Garden in Taiwan report offers a comprehensive guide to the size and shape of market demand at a national level. It provides the latest retail sales data (historic date range), allowing you to identify the categories driving growth. It also identifies the leading companies and their brands, and offers strategic analysis of key factors influencing demand - from new product developments, consumer lifestyles, route to market and pricing issues. Forecasts to 2028 illustrate how market demand is expected to evolve in the medium-term

Product coverage: Home Improvement and Gardening, Homewares and Home Furnishings.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
