### Report description:

Ice cream in Peru is benefitting from high temperatures in 2024, with the country seeing a long hot season throughout 2023 and 2024 and barely any sign of winter. 2024 began with an El Nino phenomenon that brought intense heat waves in different regions of the country. These temperatures together with high humidity in some regions of the country have triggered rapid growth in ice cream. In this context companies have reinforced their innovations to capture a bigger portion of a more attractive m...
